DOVER PICNIC.

Dover Modern Woodmen Hold Pleasant Function.

A number of people from Lexington went to Dover Saturday to attend the picnic given by the Dover camp of Modern Woodmen of America. The picnic was held at a grove about a mile west of Dover.

The day was a fine one and it kept a good many farmers in the wheat fields; but it made things pleasant for those who were at the grounds. The prominent speakers who had been billed were unable to be present. The Rev. Henshaw, though, made an able and appropriate address which was enjoyed by all who heard it.

Near the grounds there was a shoot, in which the Slusher family carried off the honors, and a ball game between the Dover and Higginsville teams. The Higginsville boys won with a score of 19 to 9.

Capt. Day with his band of sixteen pieces delighted the crowd with good music. They played during the day at the grounds and in the evening gave a short concert in front of the hotel. The boys played at their best largely on account of the delectable viands to which they were treated. Dover is famous for its cooks and generosity. It was the writer's good fortune to eat at the spread provided by Mesdames Plattenburg, Stark and Eagan.

Altogether the picnic was enjoyable, but the Woodmen say that next year they will give a much bigger and better one.

PAIN

Pain in the head—pain anywhere, has its cause. Pain is congestion, pain is blood pressure—nothing else usually. At least, so says Dr. Shoop, and to prove it he has created a little pink tablet. This tablet—called Dr. Shoop's Headache Tablets—coaxes blood pressure away from pain centers. Its effect is charming, pleasingly delightful. Gently though safely, it surely equalizes the blood circulation.

If you have a headache, it's blood pressure. If it's painful periods with women, same cause. If you are sleepless, restless, nervous, it's blood congestion—blood pressure. That surely is a certainty, for Dr. Shoop's Headache Tablets stop it in 30 minutes, and the tablets simply distribute the unnatural blood pressure. Bruise your finger, and doesn't it get red, and swell, and pain you? Of course it does. It's congestion, blood pressure. You'll find it where pain is—always. It's simply Common Sense. We sell at 25 cents, and cheerfully recommend

Wentworth Military Academy

To those who are thinking about a school for their boys this fall, offers:

1st. A complete Business Course together with instruction in all other branches of school work.

2nd. Classification instead of graduation. A boy is classified in each subject according to his advancement in that subject. He may be good in Mathematics but poor in his English. He is placed where he belongs in each.

3rd. Manual Training. The work of this department has been most gratifying in every respect. And our facilities are being improved in this direction each year.

4th. Military Department. Second to none in the great Middle West. A recent rating of the War Department places us in Class "A," the highest class of Military schools. There are only 17 of this rank in the U. S.

5th. A faculty of college graduates that will compare favorably with the faculties of most of the state colleges. Our teachers are all men. This is an important matter for boys after they reach the age of 13 or 14.

6th. Our enrollment last year was the largest in the history of the school—185 cadets from 16 states and 2 foreign countries. The acquaintances made by your son from such a wide territory may prove valuable to him in his future business life. Fall term opens Sept. 19. 8-14td d & w
